

Anti-Human α 2-MACROGLOBULIN

(Polyclonal rabbit)

Cat. No.:	CA-427
Titre:	Depending on application this serum may be used at dilutions between 1:100 - 1:5000.
Antigen:	Highly purified alpha-2-macroglobulin.
Cross reactions:	Identity with intact purified alpha-2-macroglobulin and alpha-2-macroglobulin in serum.
Applications:	Immunoprecipitation, immunochemistry, Western blotting, ELISA and radial immunodiffusion.
Presentation:	1ml antiserum.
Storage:	Store frozen at -20°C. May be kept refrigerated at +4°C with 0.1% sodium azide
